HELICOPTERS IN OPERATION

Robinson R44 Clipper – 3 Passengers

The R-44 is a single-engined fuel injected helicopter with a semi-rigid two-bladed main rotor and a two-bladed tail rotor and a skid landing gear. It has an enclosed cabin with two rows of side-by-side seating for a pilot and three passengers.

Bell 206B – Floated – 4 Passengers

The legendary Bell 206B JetRanger III is simply the most successful commercial helicopter ever built. Flying in every type of climate from the arctic to the jungles, to the hottest deserts of the worlds. The 206 has accepted, accomplished more missions, has flown more hours and has set (and broken) more industry records than any other aircraft in the world.

The Bell206B3 is a 5 seat model, commercially used all over the world for its excellent safety record and comfort.

Bell 407 – Floated - 6 Passengers

The full integration of speed, performance and manoeuvrability. Reliable beyond measure. Outfitted with a spacious cabin that seat up to six plus one pilot, configurable for an array of tasks and payloads. Composite dynamic components and unmatched rotor authority for an incredibly smooth ride in

virtually all conditions. The 407 is the first choice of those who put performance and comfort first.

INSURANCE

All our helicopters are insured up to \$5m US per helicopter. All our machines are maintained by our own Engineering department also servicing a wide range of other machines in the general Cape Town area. Copies of our insurance can be supplied on request.
